## REVENUES RETURNED TO OREGON AND WASHINGTON COUNTIES

PORTLAND, January 3--Thirty-one counties in Oregon and 27 counties in Washington received over \$210 million as their share of revenues from the sale and use of national forest products and services in fiscal year 1989.

The Oregon amount totals \$164,154,709.67, and the Washington amount totals \$47,209,585.66, according to Pacific Northwest Regional Forester John F. Butruille. Last year's totals were \$144,530,722.88 and \$43,386,937.25. The counties received approximately three-fourths of the 1989 amounts at the end of the fiscal year, September 30.

Oregon leads the nation in its share of \$362 million distributed to 41 states and Puerto Rico; Washington ranked third, with California second.

The money returned to states, and in turn to the counties to be used for public schools and roads, represents 25 percent of the money collected by the Forest Service from the sale of timber, grazing, recreation, mineral extraction and other land-use charges on the 191 million acres of national forest system lands.
